

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

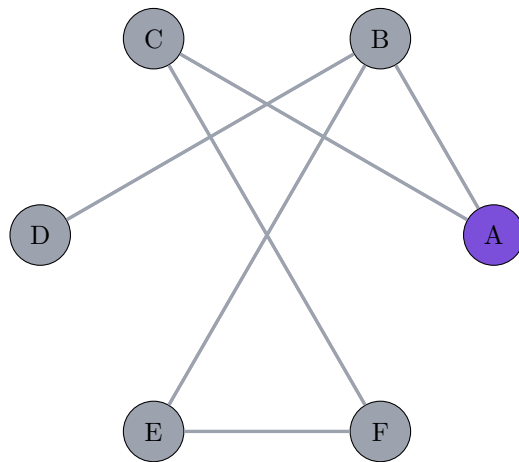

DFS

Log

Node A hasn't been visited yet | marking it visited now.

Graph

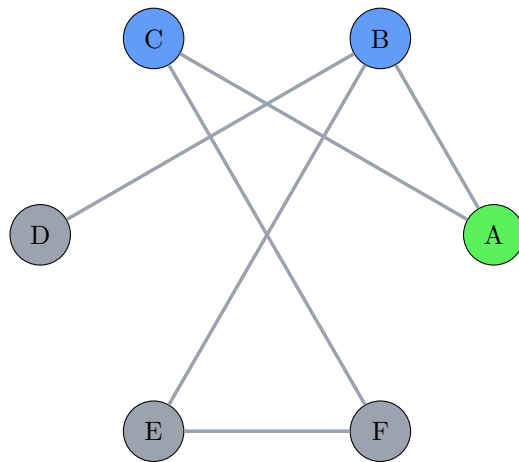

Stack

DFS

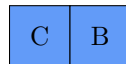

Log

Pushing node A's neighbors onto the stack to visit next.

Graph

Stack

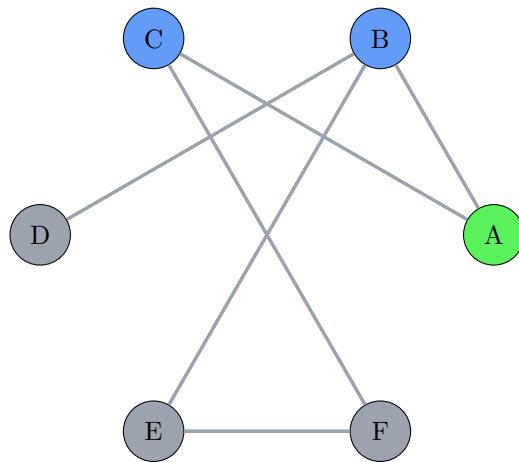

DFS

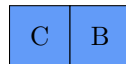

Log

Popping the last node pushed onto the stack.

Graph

Stack

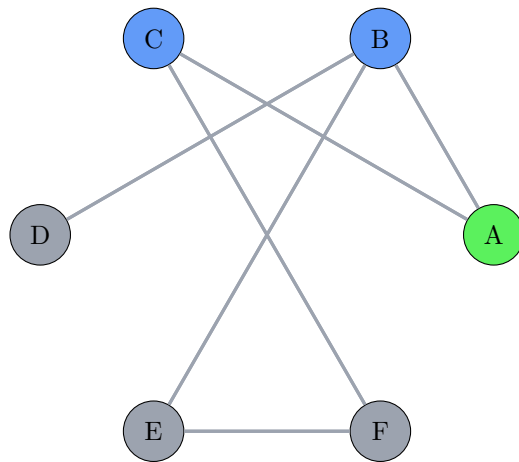

DFS

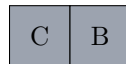

Log

Popping the last node pushed onto the stack.

Graph

Stack

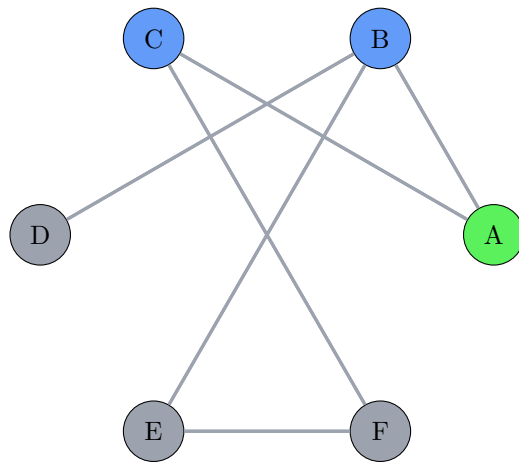

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

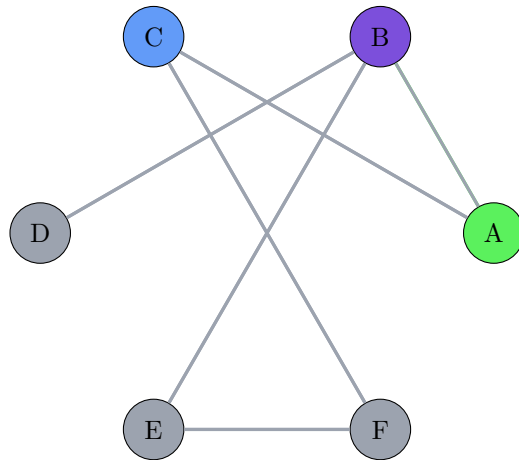

DFS

Log

Node B hasn't been visited yet | marking it visited now.

Graph

Stack

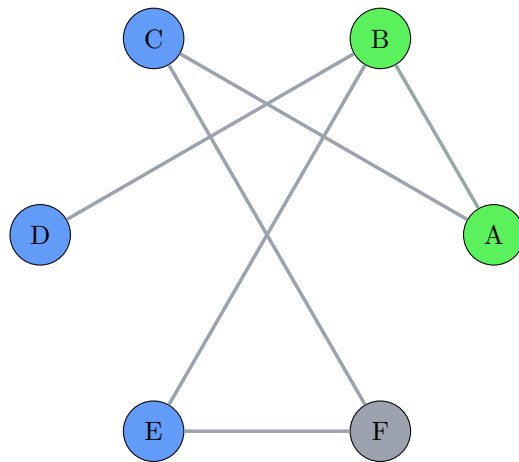

DFS

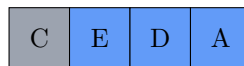

Log

Pushing node B's neighbors onto the stack to visit next.

Graph

Stack

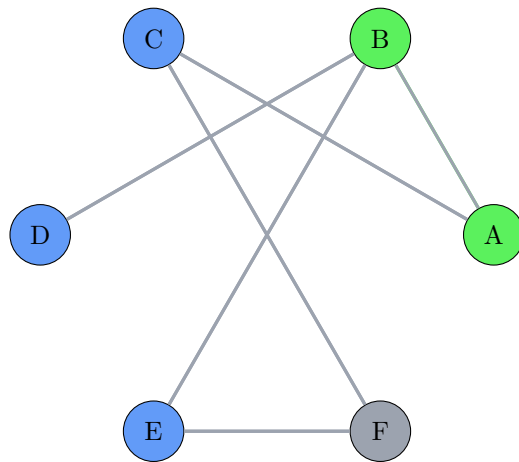

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

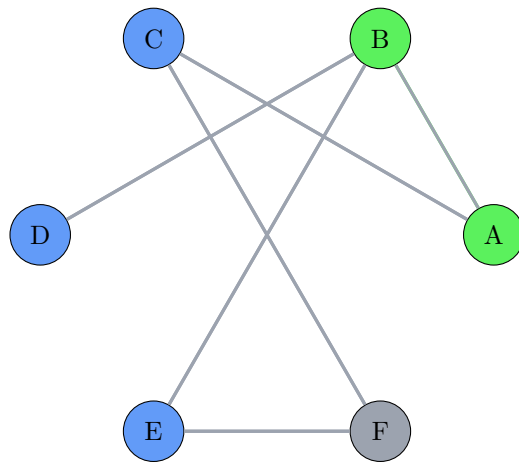

DFS

Log

Popping the last node pushed onto the stack.

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

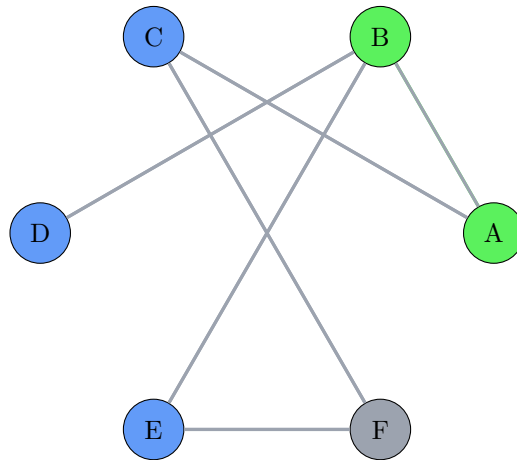

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

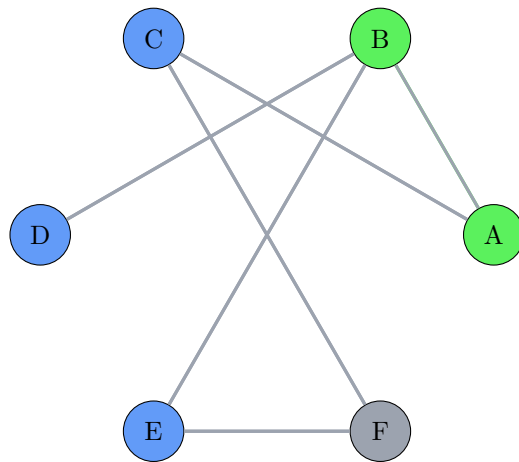

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

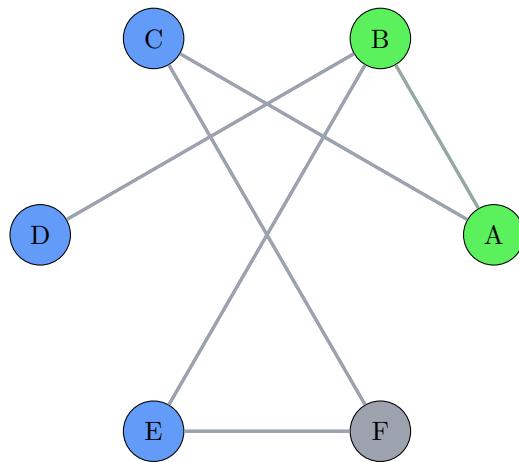

DFS

Log

Node D hasn't been visited yet | marking it visited now.

Graph

Stack

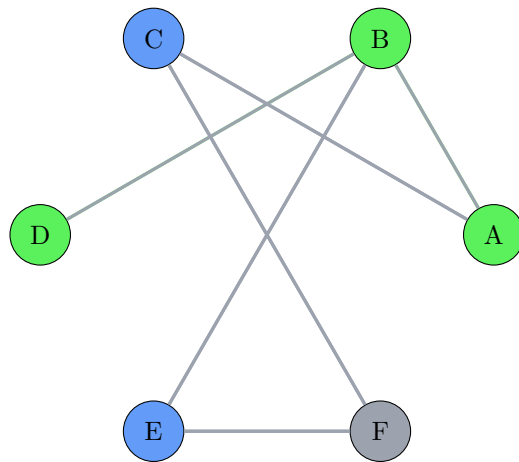

C	E
---	---

DFS

Log

Pushing node D's neighbors onto the stack to visit next.

Graph

Stack

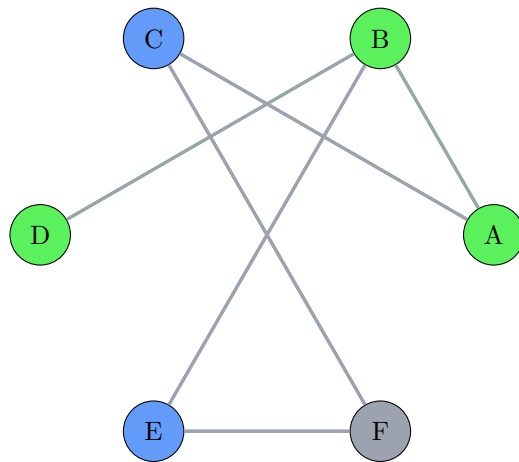

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

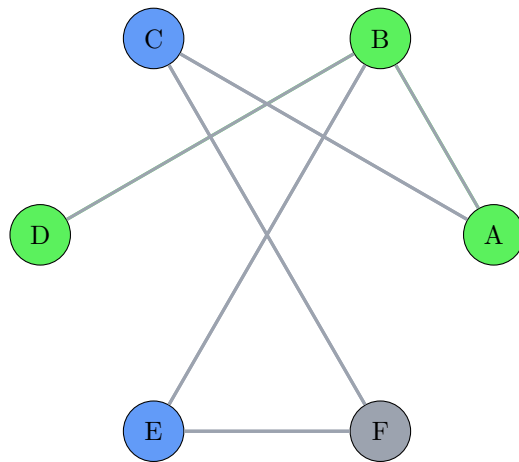

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

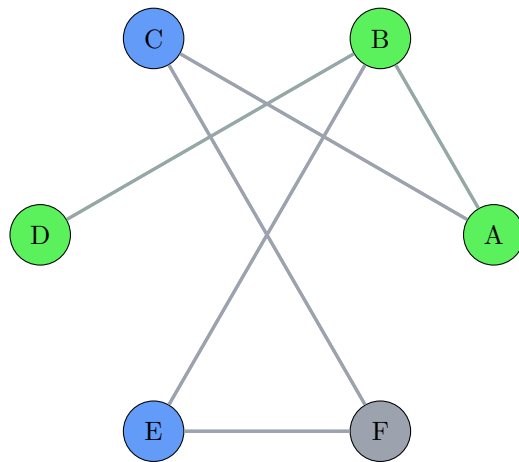

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

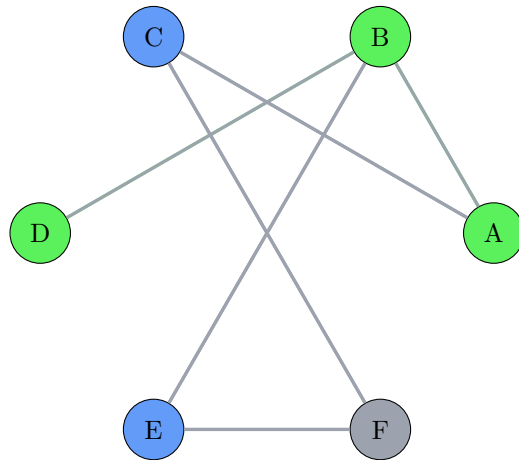

DFS

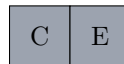

Log

Node B was already visited | skipping it.

Graph

Stack

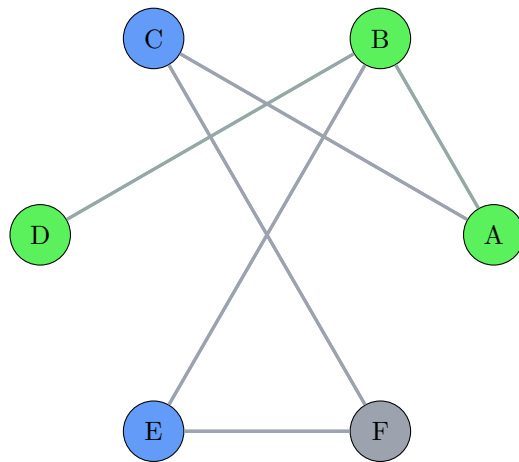

DFS

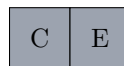

Log

Popping the last node pushed onto the stack.

Graph

Stack

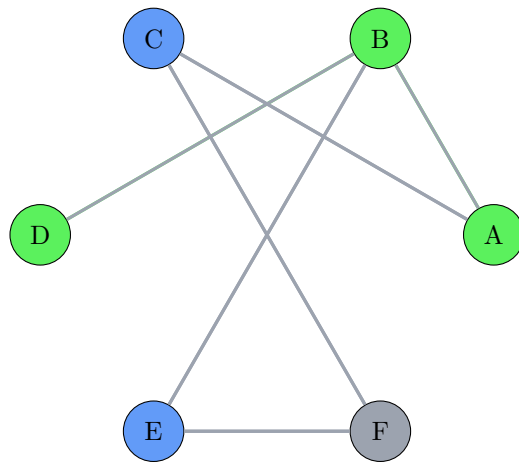

DFS

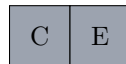

Log

Popping the last node pushed onto the stack.

Graph

Stack

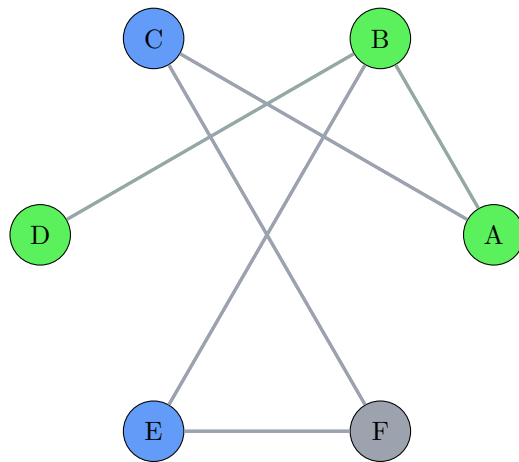

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

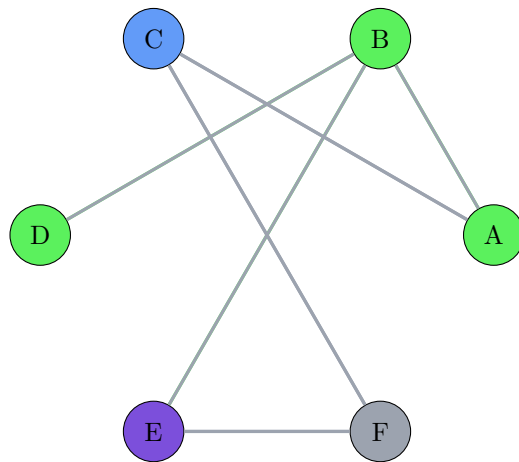

DFS

Log

Node E hasn't been visited yet | marking it visited now.

Graph

Stack

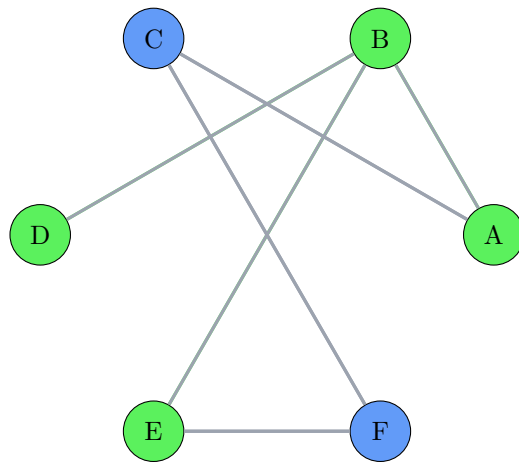

DFS

Log

Pushing node E's neighbors onto the stack to visit next.

Graph

Stack

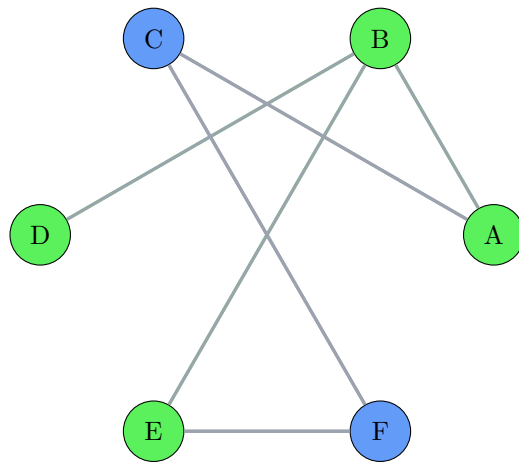

DFS

Log

Popping the last node pushed onto the stack.

Graph

Stack

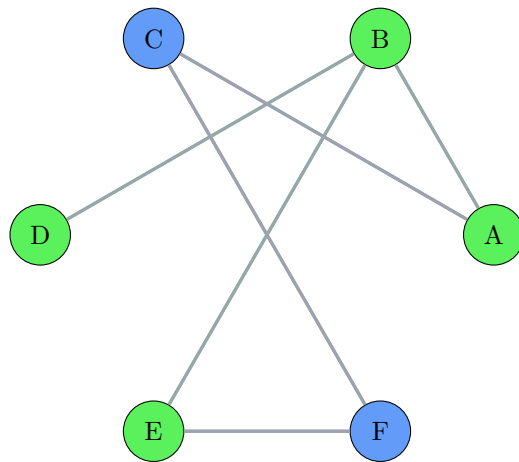

DFS

Log

Popping the last node pushed onto the stack.
